Situated in the middle section of the Río Paraná. You'll explore remote backwater creeks and fish every structure the river offers from submerged trees to cut-banks and deep channels

PARANÁ RIVER OUTFITTERS (PRO)

ENDORSED BY NERVOUS WATERS

PRO is the brainchild of a group of some of the best professional dorado fishing guides. We, at Nervous Waters, are excited to partner with them to create a program focused on BIG dorado on the fly.

The adventure on the Middle Parana begins with intercepting the legendary sábalo baitfish migration which starts in June and ends in October. This section of the Parana is rich in varied habitat. That diversity makes for an exciting fishery. Wadable sandbar flat provide awesome sight-fishing opportunities. Deep cut banks and wooded structure provide classic holding water for cruisers. Black-water creeks (tannin colored) and deep channels provide even more exploratory opportunities. In general, water levels dictate the route of the baitfish, and those movements determine where we'll find the monsters each season. PRO has spent the past two years studying and scouting these waters in order to put you in their direct path.

WHY CHOOSE PRO?

- Fish with the best Golden Dorado guiding team in Argentina
- Located on the Middle Paraná, where the bulk of the Sabalo migration occurs
- BIG Dorado are our specialty and, the chances are high of landing the Dorado of your lifetime
- Fish from custom-designed, comfortable skiffs specifically designed for the Paraná River
- Casting platforms at both ends of the skiffs allow anglers to safely cast simultaneously
- Sight cast to aggressive Dorado in skinny water on the Parana's legendary sandbar flats
- Enjoy the friendly environment, beautiful landscapes, and abundant nature the Corrientes Province is known for
- The Paraná River is one of the world's top bird-watching destinations
- High-quality loaner fly and conventional equipment available
- Simple logistics to and from Buenos Aires
- Cast and blast! Our season lines up perfectly to combine your adventure with a wing shooting experience with David Denies!

LOCATION

- Stay at a high-end hotel in picturesque Bella Vista (Rio Arriba Hotel), located on the Paraná River where the river marks the border between Corrientes and Santa Fé provinces in Argentina.
- This middle section of the Paraná flows clearer on the Corrientes' side, murkier on the Santa Fe's side. Both sides fish well, with structure-rich banks, long sandbars, and numerous islands that create deltas and smaller side-streams.
- Short daily flights are available from Buenos Aires Aeroparque Domestic Airport (AEP) to Corrientes (CNQ) or Resistencia (RES). From the CNQ airport it is an hour and 40 minute' drive and from RES airport it is a 2 hours' drive.

Here the odds of landing a true river monster are highest, and landing a 40-lb Golden Dorado on a 7-weight rod is a true possibility

FACILITIES AND SERVICES

- Capacity: 10 anglers
- Rooms are based on single occupancy
- Dining room, Bar, Swimming Pool, “Asado” Area
- Telephone and WIFI availability
- Typical Argentine dining with Argentina’s famed beef and fine wines, traditional Aasados (BBQs) and delicious desserts
- Maid and Laundry service
- Loaner fishing equipment available upon request

THE FISHING

- Dorado are one of the most exciting species anglers can catch on a fly offering anglers strong and aggressive takes, acrobatic jumps and a good fight. Pro's operation is located on the best section of the Paraná for landing a monster during our June through October season. You'll also find good sight-fishing opportunities when dorado are located on the sandbars, where they come to ambush cruising sábalo.
- Guest will fish primarily from our new fleet of 22-foot Carolinas' Skiffs. These custom design boats have 2 decks (one on the front, another one on the back), so that 2 anglers can fish simultaneously.
- The Parana River is a structure-loaded system. Most of the time our guides "drift" the boats using trolling motors in order to target the nuanced natural habitat, from sunken logs and boulder gardens, to small bays and side channels. Other times, fish are concentrated on sandbanks, where they corral and attack baitfish. If this is the case, we'll often drift-fish the sand areas or wade fish in search of action.

FISHING SCHEDULE

Fishing is done throughout the entire day from 9:00am until dusk, approximately 6:30pm to 7pm. We don't go back to the lodge for lunch, as days are shorter than in the summer.

FLY FISHING EQUIPMENT

RODS: 8 to 10 weight rods

REELS/LINES:

- Floating Line: We suggest Redfish tapered floating lines (or Jungle series) and often suggest over lining your rod with a size heavier line than the weight of the rod. (Consider cold water lines for the winter months of June, July and August and warm-water lines for September and October).
- Intermediate and Sinking lines can also be productive (275 to 350 grains).

LEADER/TIPPET:

- 30 to 70 lbs mono or fluorocarbon (better).
- 40 to 65 lbs wire for bite tippet ([American Fishing Wire](#) - Model: Surfstrang Micro Supreme, Bare 7x7 Stainless Camo Leader).

FLIES:

- Andino Deceivers and similar (4- to 7-inch streamers tied on 3/0 to 4/0 hooks) and some other patterns can be good, depending on the clarity of the water.
- We recommend that you buy flies from the guides—they will have what you need, as they tie flies and know the game.

SPINNING & BAIT-CASTING

RODS: Between 1.80 and 2.10mts (5.9 to 6.9 footers); 10- to 20-lbs or 12- to 25-lbs medium- to fast-action rods are needed.

LINES: 40 to 60lbs multifilament

LURES: Rapala Glidins (size 12), Rapala Super Shad Raps (14), and Rapala X Raps. Johnson spoons (between 2 3/4 and 3 3/4 inches) and Abu Atom spoons (9cm 35gr) are also useful, as well as poppers and soft-baits. Argentinean lures made especially for dorado are available, too. We can provide your lures; they will be customized by the guides.
