PARANÁ RIVER OUTFITTERS (PRO)

A Bigger Dorado Experience

PRO melds one of Argentina's most renowned outfitters with some of the finest Golden Dorado guides worldwide. Situated in the middle section of the Río Paraná—South America's second-longest river and watershed —this subtropical winter fishery (from June 20 to November 5) targets the peak of the river's legendary Dorado migration.

The annual inflow of Sábalo brings the season to life. Aggressive Dorado gorge on the baitfish, growing to sizes of 10 to 40+ lbs. After two full years of scouting, our guides are keyed in on the habits and habitats of these formidable and complex fish. You'll sight-fish to monsters prowling the river's long sandbars, explore remote backwater creeks, and you'll cover everything from woody structure to cut-banks and deep channels.

LOCATION

Stay at a high-end hotel in picturesque Bella Vista (Rio Arriba Hotel), located on the Paraná River where the river marks the border between Corrientes and Santa Fé provinces in Argentina. This middle section of the Paraná flows clearer on the Corrientes' side, murkier on the Santa Fe's side. Both sides fish well, with structure-rich banks, long sandbars, and numerous islands that create deltas and smaller side-streams.

Daily flights are available from Buenos Aires Aeroparque Domestic Airport (AEP) to Corrientes (CNQ) or Resistencia (RES). These 2 neighboring airports are located 25 minutes from each other. It is a 1-hour nonstop flight to either of these airports, from there it's a 75-mile drive to the hotel, a 1.45 to 2 hours' drive.

Situated in the middle section of the Río Paraná. You'll explore remote backwater creeks and fish every structure the river offers from submerged trees to cut-banks and deep channels.

THE FISHING

Dorado are one of the most exiting species anglers can catch on a fly offering anglers strong and aggressive takes, acrobatic jumps and a good fight. Pro's operation is located on the best section of the Paraná for landing a monster during our June through October season. You'll also find good sight-fishing opportunities when dorado are located on the sandbars, where they come to ambush cruising sábalo. Guest will fish primarily from our new fleet of 22-foot Carolinas' Skiffs. These custom design boats have 2 decks (one on the front, another one on the back), so that 2 anglers can fish simultaneously.

The Paraná River is a structure-loaded system. Most of the time our guides "drift" the boats using trolling motors in order to target the nuanced natural habitat, from sunken logs and boulder gardens, to small bays and side channels. Other times, fish are concentrated on sandbanks, where they corral and attack baitfish. If this is the case, we'll often drift-fish the sand areas or wade fish in search of action.

Double-digit Dorado are real possibilities... and that is PRO's main focus

DAILY ITINERARY

Every morning at PRO starts with a hot, fresh breakfast in our private dining room. Then, around 8:30 AM, we take a short 2-minute walk down to the dock, where our custom skiffs are waiting to embark for the day's fishing action.

We will fish all morning, and then have a hot lunch on the shores of the Paraná, prepared by your guides, and, of course, paired with Argentine wines and local beer. After lunch, we'll head back out, fishing until dusk, approximately 6:30pm to 7pm, when we return to the lodge for aperitifs, followed by dinner and drinks.

FLY-FISHING EQUIPMENT

RODS: 8 to 10 weight rods

REELS/LINES:

- Floating Line: We suggest Redfish tapered floating lines (or Jungle series) and often suggest over lining your rod with a size heavier line than the weight of the rod. Consider cold water lines for the winter months (Jun - Aug) and warm-water lines for Sep. and Oct.
- Intermediate & Sinking lines can also be productive (275 to 350 grains).

LEADER/TIPPET:

- 30 to 70 lbs mono or fluorocarbon (better).
- 40 to 65 lbs wire for bite tippet (American Fishing Wire - Model: Surfstrang Micro Supreme, Bare 7x7 Stainless Camo Leader).

FLIES:

- Andino Deceivers or similar (4- to 7-inch streamers tied on 3/0 to 4/0 hooks) and other patterns can be good, depending on the clarity of the water.
- We recommend you buy flies from the guides—they will have what you need, as they tie flies and know the game.

SPINNING & BAIT-CASTING

RODS: Between 1.80 and 2.10mts (5.9 to 6.9 footers); 10- to 20-lbs or 12- to 25-lbs medium- to fast-action rods are needed.

LINES: 40 to 60lbs multifilament

LURES: Rapala Glidins (size 12), Rapala Super Shad Raps (14), and Rapala X Raps. Johnson spoons (between 2 3/4 and 3 3/4 inches) and Abu Atom spoons (9cm 35gr) are also useful, as well as poppers and soft-baits. Argentinean lures made especially for dorado are available, too. We can provide your lures; they will be customized by the guides.

Morning rides out into the Paraná, and our favorite riachos are simply the best way to wake up on a crisp spring day in Corrientes.
