PIRÁ LODGE

ESTEROS DEL IBERÁ, CORRIENTES, ARGENTINA

The beautiful estancia of Pira Lodge, located in heart Northern Argentina's Ibera Marshland, gives anglers front-door access to one of the most pristine ecological preserves in the world. This river and marsh system is more than twice the size of Florida's Everglades National Park and it is every bit as wild.

The marsh teems not only with incredible migratory birds, caiman, capybara and marsh deer, but is Argentina's gold standard for its Dorado fishery. You would be hard pressed to find a more breathtaking place to stand on the bow of a flats skiff, casting streamers, mice and poppers for fish such as these. These golden predators are acrobatic and eat a fly like they are out to kill. From sight-fishing the labyrinth of the marsh's headwaters to exploring the lower reaches of the Corrientes River, every day is a new adventure.

Off the water, Pira Lodge is equally impressive and inspiring. This architectural treasure has long been a haven for those in search of comfort, fine dining and authentic Argentine hospitality. A country riverside experience with a wonderful touch of elegance.

GETTING THERE

Guests flying into Buenos Aires can access Pira by one of three ways:

1. Commercial flights to Corrientes (CNQ) or Resistencia (RES). These neighboring airports both offer 1-hour daily flights to and from Buenos Aires. Upon landing at CNQ or RES, you'll be met by a Nervous Waters representative, who will shuttle you to the lodge.
 - Drive time from CNQ to Pira: 3.5 hours
 - Drive time from RES to Pira: 4.5 hours.
2. Private Charters. Pira Lodge has a 5,000' grass landing strip, making airflight chartering into the lodge ideal.
3. First Class Sleeper Bus. . Don't let the bus scare you off! This is an excellent option. The overnight bus is similar to riding 1st-class on an airplane. The seats recline fully horizontal. The bus leaves Buenos Aires bus station at 9 p.m. and arrives in Mercedes at approximately 6.30 a.m. the following morning. From there it's a short 1-hour and 15minute drive to the Lodge.

THE FISHING

Dorado fishing at Pira takes place in one of the planet's largest ecological preserve. It's lush and wild. The marsh "floating grass" islands are always shifting and moving, making the marsh truly alive and dynamic.

The fishery can be divided into two hemispheres: the Marsh as the headwaters, and the Corrientes River located downstream of the Lodge. You'll be provided the opportunity to explore both of these these two distinctly different environments and learn the various waters for chasing dorado.

The intricate Marsh is comprised of streams, lagoons, and side-channels. Big Dorado annually push into this skinny-water utopia. Here, we typically fish from the bow of our Hell's Bay skiffs, one angler at a time. When water conditions are low, there can be great wade-fishing opportunities.

The stunning Corriente River is the perfect set up swinging and stripping streamers from the banks of the river. In the deeper pools, sinking lines are used, but intermediate and floating lines can work as well. The average fish ranges from 4 to 8lbs, but many are caught over 10 lbs. all the way to 20+ lbs. Last season's biggest dorado weighed in at 27.5 lbs. on the scales.

We fish a variety of flies from mouse patterns to streamers. This spectacular ecosystem is brimming with wildlife and is one of the most productive environments for Dorado in all of Argentina.
